

*A flower plucked from its soil,
depletes Earth of its beauty!*

*Crochet Flowers is based on this concept: love for Nature's
marvelous array of coloured flowers and the creativity expressed
by a single strand of yarn and a simple crochet hook.
This magical symbiosis brings back an old art form that's not
only creative, but also brightens a house with a wide variety of
flowers of lively true-to-life colours, in full respect of nature and
without detracting from it!*

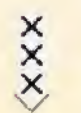

Crochet Flowers ...
